## FOGO - VOLCANIC ISLAND

### Day 1 – Transfers / Flight to Fogo

After arriving at Fogo, we begin with a visit to **São Filipe**, one of the prettiest Cape Verde towns and which through its preservation and patrimony is a candidate for World Heritage.

The 1700 metre climb to the crater of **Chã das Caldeiras** begins as soon as we leave **São Filipe**. From the start until we reach the summit it is just one unforgettable view after another. The ground grows darker as we climb, until we reach the crater of the volcano and see an almost lunar landscape, where the land, houses and sand are black, creating an unforgettable image in the mind. The population of **Chã das Caldeiras** is timid and curious. Here you can quite often see the famous Creoles with blond hair and blue eyes... The volcanic eruptions don't make the natives leave the area. The last big eruption, in April 1995, destroyed almost all the houses. The natives took shelter in the surrounding zones and when the eruption came to an end they returned to "their" Chã das Caldeiras!

We hold a picnic in a rustic crater house, with **Fogo wine and cheese** produced in this area, fried fish and local fruit.
